AMERICAN MUSEUM OF NATURAL HISTORY
NEW YORK

July 22, 1909.

My Dear Mrs. Radeke:

I am enclosing herewith a list of specimens of Philippine material, which the American Museum of Natural History takes pleasure in donating to the Rhode Island School of Design. I am sorry that the departure of the person having this department in charge, soon after you were here, prevented our attending to the matter at an earlier date. I might also say that I hope you will find the specimens adaptable to the needs of the School. If we have not in all cases given the kind of material that you most desire, if you will kindly so write, I will endeavor to make another effort.

Very cordially yours,

Director.

Mrs. E. G. Radeke,

Rhode Island School of Design, Providence, R. I.
