

AMERICAN MUSEUM OF NATURAL HISTORY

77TH STREET AND CENTRAL PARK WEST

NEW YORK December 30, 1908.

My dear Mrs. Radeke:

Will you kindly excuse my delay in replying to yours of December 31, but the demands made upon our resources, as a result of the Tuberculosis Exhibition (which on Sunday last was attended by over 63,000) have compelled me to neglect my mail.

In regard to my giving something of use to the School of Design, I would say that when you or someone connected with the School happen to be in New York, if you will arrange for a visit to the Museum, I will then show you certain textiles, basketry, etc., that I think might be of use to you.

Carey was very much pleased to receive your card and will call soon after his return.

With the pleasantest recollections of my connection with the Rhode Island School of Design, I am,

Very cordially yours,

W. C. Cresson

Director.

Mrs. E. G. Radeke,
Rhode Island School of Design,
11 Waterman Street, Providence, R. I.
